

CALL FOR PARTICIPANTS : YOUTH EXCHANGE

Are you between **18 and 30 years old** and interested in exchanges about activism, political participation and how youth can engage in building a more sustainable, equal society ? Don't wait any longer!

Come and take part in our **Youth Exchange : Y.E.S - "Youth Engagement for Society"** set up by the association **Vir'Volt** in France.

The Youth Exchange is organized around how young people across Europe are or can be active to create a more sustainable future, fight for human rights and citizenship and stand up against rising far right tendencies :

- exchanges and workshops on political participation, youth initiatives, citizenship.
- exchanges on how to take interculturality into account in societal issues, fight for more equality and sustainability.
- sharing your experiences, ways of political participation and modes of action.
- helping in a ecological youth project with eco-construction with wood.

And all this in a group composed of several young people from other European countries at Vir'Volt !

You will **live in a community** and **will actively participate in the organization of the days** that will be divided between workshops, activities and animation sessions on youth participation, **political engagement, anti-discrimination, eco-citizen practices, interculturality**, etc. as well as **taking care of the collective life of the camp (cooking, cleaning, food shopping)**. Collective responsibility for cooking and daily cleaning tasks are at the core of our eco-village project and might differ from some other "all inclusive" youth exchanges.

We will also **share moments with the citizens of the city** as well as **information about mobility** and different cross border solidarity activities that exist.

If all these topics speak to you and you want to participate in an intercultural experience in an environmental context, **then apply now !**

See you soon at Vir'Volt !

WHAT'S VIR'VOLT ?

It is an association located in the middle of nature. It exists since 1995 and welcomes volunteers from all over the world to share an intercultural experience, to work and live together, to learn to appreciate diversities and to act together to protect the environment.
